GENOME Product Comparison

Whether you're taking your first steps into the world of guitar and bass tone creation or building the ultimate professional production environment, there's a version of GENOME designed to match your workflow.

Built around the same award-winning processing engine, every version of GENOME delivers exceptional sound quality, intuitive workflow and industry-leading technologies including TSM™-Ai amplifiers, DynIR™ virtual cabinets, CODEX, PARADEX and studio-grade effects. As you move through the range, you'll unlock an expanded selection of amplifiers, pedals, cabinets and advanced creative tools.

GENOME Intro / GENOME Intro iOS

The free gateway into the GENOME ecosystem. Featuring an essential collection of TSM™-Ai amplifiers, pedals, DynIR™ cabinets and studio effects, GENOME Intro provides everything needed to start building exceptional guitar and bass tones.

GENOME / GENOME iOS

The complete guitar and bass production environment. Unlock a significantly expanded collection of premium amplifiers, pedals, DynIR™ cabinets and studio effects, alongside advanced routing and professional workflow features for recording, rehearsal and performance.

GENOME Suite / GENOME Suite iOS

The definitive GENOME experience. Combining every available (non-FairTone and non-Artist Series) GENOME Component and an expanded DynIR™ cabinet arsenal into a single package

Discover What's Inside Each Version of GENOME

From GENOME Intro to GENOME Suite, each version unlocks more amplifiers, pedals, DynIR cabinets and creative tools across desktop and iOS. Compare what's included and discover GENOME setup that works for you.

Amplifiers

Amplifier	Details	GENOME Intro	GENOME	GENOME Suite
Gemini '64	Few amplifiers define clean tone like the Fender® Twin Reverb— and Gemini '64 captures that legacy in a titan-grade twin-channel TSM-Ai design. Renowned for its pristine headroom and shimmering top-end sparkle, it delivers glassy articulation and a perfect platform for pedals. The result is a timeless voice that remains essential across genres.	√	√	√
Albion '59	Inspired by the legendary Marshall® Super Lead 1959 — the fire-breathing Plexi that defined the sound of rock — Albion '59 captures the raw power, harmonic bloom, and unmistakable authority of the original British stack, reborn inside your GENOME RIG.	√	√	√
Peggy '76	Rooted in classic bass tone, Peggy '76 draws from the iconic Ampeg® SVT '76. Revered for its immense low-end authority and warm tube character, the SVT has powered countless recordings with unmistakable punch and presence. From deep foundational tones to gritty drive, it delivers timeless bass sound with commanding depth.	√	√	√
PVH50	Meet PVH50, a titan-grade twin-channel TSM-Ai Amplifier inspired by the nefarious Peavey® 5150 (BLOCK). The Peavey® 5150 is regarded by many as the ultimate tonal powerhouse, revered for its supreme versatility in catering for everything from a raunchy rock crunch to a full-blown articulate metalcore onslaught.	√	√	√

Foundry Guitar	Whether it's a pristine high-headroom clean or a primo foundation for your pedal collection, Foundry delivers. In short, it's the epitome of a classic Cali clean, brimming with warm saturation and engineered to capture every subtle nuance of your delivery.	**GENOME / Suite Only**	√	√
Foundry Bass	Whether it's a pristine clean or a primo foundation for your pedal collection, Foundry Bass delivers. In short, it's the epitome of a classic Bass clean, brimming with warm saturation and engineered to capture every subtle nuance of your delivery.	**GENOME / Suite Only**	√	√
Peggy	Bass players seeking the pinnacle in low-end theory, look no further than Peggy. Pushing complex harmonic overtones, a warm midrange and oodles of rafter ratlin' thump, Peggy delivers the perfect blend of classic '60s bass sonics with expertly-tuned tweak-ability to sit your tone in any pocket!	**GENOME / Suite Only**	√	√
Albion	For those times when only a legendary Brit-inspired roar will suffice, there's Albion. Complete with a rich, vocal mid-range, lashings of punch, boat-loads of power and gain-for-days, Albion is your secret weapon when diving head-first into Classic- and Hard-Rock territory.	**GENOME / Suite Only**	√	√
ElDorado	Tight response? Check. Rich in harmonics? Check. Searing, perfectly balanced gain fused with lashings of sustain? Oh Yes! This really is a "triple threat" for the guitarist venturing into hard-rock and metal territory.	**GENOME / Suite Only**	√	√
Foxy	Seeking chime, articulation and buttery-smooth presence? Foxy's a one-stop-shop! With airy highs, impeccable breakup and sublime mid-range bite when pushing the gain, Foxy is primed to take on everything from sultry Jazz to raunch-fuelled Rock n' Roll.	**GENOME / Suite Only**	√	√

FlatBack	Looking for some Cali-born high-gain sonics, pushing the perfect combination of unrelenting power and deft levels of clarity? FlatBack's a one-stop-shop offering lashings of harmonically rich overtones, a full bodied low-end and articulation for days!	**GENOME / Suite Only**	√	√
Aviator	Looking for the epitome of a modern, forward-thinking bass tone? You owe it to your tone to check out Aviator. Whether it's rafter-rattlin' lows, or a high-gain onslaught fused with the all-important clarity your tone demands, this TSM™ Amplifier delivers on all counts!	**GENOME / Suite Only**	√	√
Nifty50	Want gain? Nifty50's got it on tap! It's aggression incarnate. It's punchy. It's super-versatile covering everything from a warm full-throttle onslaught to a searing lead tone that cuts through any mix. Whether it's the darker side of metal or a tone that wouldn't be amiss in 80's inspired virtuosity, Nifty50 is deserving of any contemporary player's sonic arsenal.	**GENOME / Suite Only**	√	√
Gemini	For players seeking an alt slant on the iconic Bear-State clean, Gemini is just what the doctor ordered! At its core it delivers an articulate touch-sensitive sparkling-clean with oodles of warm breakup when pushed	**GENOME / Suite Only**	√	√
Tanger	Fusing boat-loads of punch, lashings of sustain and a unique brit-inspired gain stage, Tanger 'aint no one-trick-pony - it's a powerhouse of tone primed for virtually any performance or recording scenario!	**GENOME / Suite Only**	√	√
FlatBackFive	Looking for an alternate slant on Gold Coast high-gain sonics, complete with unrelenting gain, the perfect blend of relentless power and deft levels of precision? If the answer's a resounding "YES", then FlatBackFive is an absolute must-have!	**GENOME / Suite Only**	√	√

Eldorado100	Forged for pure high-gain excellence, Eldorado100 draws inspiration from the legendary Soldano® SLO 100. Widely hailed as one of the most iconic amplifiers ever created, the SLO 100 is known for its searing lead tones, tight low-end response, and exceptional clarity under saturation. From fluid, violin-like solos to crushing rhythm work, it sets the benchmark for modern rock and metal tone.	**GENOME / Suite Only**	√	√
Tanger Rock	Unleash Tanger Rock, a titan-grade twin-channel TSM-Ai Amplifier inspired by the ferocious Orange® Rockerverb 100 MK3. Celebrated for its unmistakable British character, the Rockerverb delivers everything from rich, harmonic-laden cleans to thick, saturated high-gain tones with effortless authority. Its dynamic response and studio-ready versatility make it a go-to for players seeking both vintage warmth and modern aggression.	**GENOME / Suite Only**	√	√
Foxy30	Chime, character, and pure musicality—Foxy30 channels the spirit of the iconic Vox® AC30. Famous for its jangly highs and touch-sensitive breakup, the AC30 shaped the sound of generations. From sparkling cleans to smooth, harmonically rich overdrive, it offers an expressive voice that responds to every nuance of your playing.	**GENOME / Suite Only**	√	√
FlatBack MKV	Precision meets versatility in FlatBack MKV, inspired by the formidable Mesa/Boogie® Mark V. Known for its wide tonal palette, the Mark V moves effortlessly between pristine cleans, tight crunch, and articulate high-gain. With its sculptable EQ and refined voicing, it's built for players who demand absolute control on stage and in the studio.	**GENOME / Suite Only**	√	√

CODEX	CODEX is a next-gen unification engine built to unleash the full potential of AI-powered amp and pedal captures, with NAM, AIDA-X and Proteus compatibility plus custom-engineered tone-shaping tools.	√	√	√
STUDIO EQ	STUDIO EQ delivers up to 16 bands of operation, visual analysis and band-isolate functionality, covering both creative shaping and corrective precision for live tone and mixdown alike.	√	√	√
STUDIO Twin Tracker	STUDIO Twin Tracker delivers cutting-edge stereo double tracking in real time, creating a virtual guitarist on the right channel for a wider, richer and more immersive stereo image.	√	√	√
Wall of Sound Post FX	Wall of Sound Post FX replicates the post-effects suite from Two notes' industry-standard power-amp modelling, cabinet emulation and virtual mic'ing workflow inside GENOME.	√	√	√
IR Loader	IR Loader is purpose-engineered for static cabinet IRs, with support for two mono or stereo IRs per instance and compatibility with .wav, .aiff and .tur files.	√	√	√
DynIR Engine	DynIR Engine delivers the pinnacle of virtual guitar and bass cabinet emulation, with 8 microphones per cabinet, dual mic'ing and 10,000 front-and-back mic positions for exhaustive tonal control.	√	√	√
STUDIO Delay	STUDIO Delay delivers dual-channel operation, tempo-synced or free-form delay times and studio-grade filtering, covering everything from ambient post-rock washes to mix-cutting slapback with ease.	**GENOME / Suite Only**	√	√
STUDIO Chorus	STUDIO Chorus delivers rich, liquid modulation with fuss-free control, covering everything from subtle movement to wide contemporary ensemble textures with immersive width and polish.	**GENOME / Suite Only**	√	√

STUDIO Vibrato	STUDIO Vibrato delivers expertly tuned contemporary and traditional modulation with elegant three-parameter control, adding expressive pitch movement and character to your tone in seconds.	**GENOME / Suite Only**	√	√
STUDIO Tremolo	STUDIO Tremolo delivers Dynamic and Harmonic operation with full studio-grade control, covering everything from ’60s surf pulse to hard-cutting rhythmic movement with edge and definition.	**GENOME / Suite Only**	√	√
STUDIO Phaser	STUDIO Phaser delivers selectable 6-stage operation and studio-grade control, ranging from subtle enhancing drift to ultra-wide stereo phasing that adds motion, dimension and distinction.	**GENOME / Suite Only**	√	√
STUDIO Flanger	STUDIO Flanger delivers everything from mix-ready stereo sweetening to extreme contemporary flanging, combining essential controls with rich modulation and dramatic swept character.	**GENOME / Suite Only**	√	√
TSM Power Amp	Powered by proprietary TSM™ technology, TSM Power Amp delivers authentic tube power-stage mojo with 6L6, EL34, EL84 and KT88 models, plus class and topology options for deeper tonal shaping.	**GENOME / Suite Only**	√	√
PARADEX	PARADEX plays Two notes’ proprietary PARADX captures, delivering control-aware amplifier modelling that maps gain, tone and poweramp behaviour for dynamic, responsive tone shaping beyond static snapshots.	**GENOME / Suite Only**	√	√
STUDIO Compressor	STUDIO Compressor delivers surgical dynamic control with pro-grade compression features, lookahead and an intuitive visual analysis engine for precise, polished and responsive signal shaping.	**GENOME / Suite Only**	√	√
STUDIO Enhancer	STUDIO Enhancer delivers low-end thickness, high-end brilliance and added body in a streamlined format, giving your DI tone more fullness, presence and immediate mix-ready impact.	**GENOME / Suite Only**	√	√

All Information is subject to change without notice

STUDIO Exciter	STUDIO Exciter delivers low-end definition and top-end sizzle through an expertly tuned algorithm, helping you shape brighter, tighter and more immediate tones with minimal tweaking.	**GENOME / Suite Only**	√	√
Planet	Inspired by the classic plate units behind countless iconic records, Planet delivers smooth dense decay, fast response and bright, balanced studio-grade plate reverb with clarity, sheen and polish.	**Optional Add-On**	**Optional Add-On**	√
Tetraverb	Inspired by classic spring reverb heritage including Fender®, Roland® and Gibbs®, TetraVerb delivers quad-mode spring ambience with everything from short bright splash to lush, vintage-soaked reverb character.	**Optional Add-On**	**Optional Add-On**	√
Astro Repeater	Inspired by the legendary Roland® Space Echo RE-201, Astro Repeater delivers tape echo and spring reverb character with otherworldly texture, vintage depth and expansive, dimension-shifting ambience.	**Optional Add-On**	**Optional Add-On**	√

DynIR Virtual Cabinets

DynIR Virtual Cabinet	Details	GENOME Intro	GENOME	GENOME Suite
AE CaliB 212 P12N	DynIR Virtual Cabinet inspired by a vintage Fender® Bassman oversized 2x12 Guitar Cabinet loaded with Jensen® P12N Drivers.	√	√	√
AE LumberLeaver50 412 Shef	DynIR Virtual Cabinet inspired by an original Peavey® 5150 4x12 Guitar Cabinet loaded with Sheffield® 1200 Drivers	√	√	√
Brit Vint C	DynIR Virtual Cabinet inspired by a closed-back Marshall® Slash Signature 4x12 Guitar Cabinet loaded with Celestion® Vintage 30 Speakers.	√	√	√
Watt fanC	DynIR Virtual Cabinet inspired by a Hiwatt® HG212 Guitar Cabinet loaded with Fane® Axiom 12-100L Speakers.	√	√	√
Fridge9	DynIR Virtual Cabinet inspired by an Ampeg® V-9 9x10 Bass Cabinet loaded with Eminence® Custom Speakers.	√	√	√
